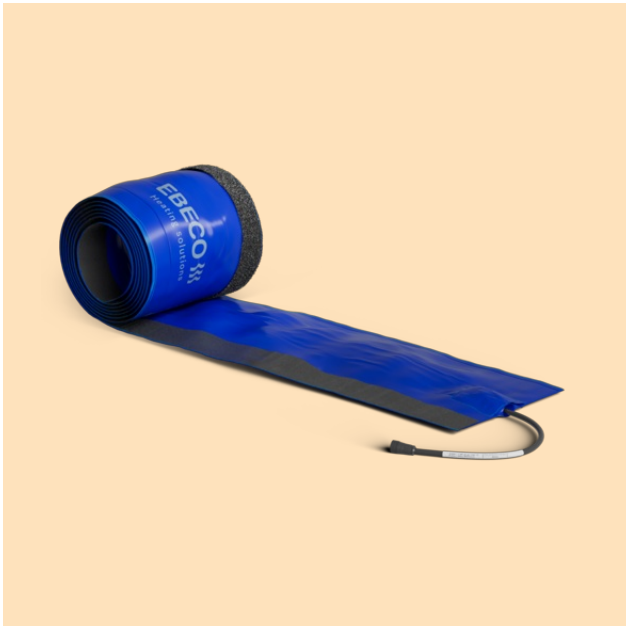
EBECO



Frostvakt W

Heating mat for temporary heating

Usage

- For outdoor use
- Pipe freeze protection
- Temporary frost protection solutions, Portacabins etc.

Plug Self-regulating Mat

- Easy to install
- Flexible and adaptable
- Can be connected in series

The heating mat is designed for frost protection of water pipes and drainage lines in outdoor environments. Installation is done using Velcro fasteners, providing easy attachment and flexible adjustment. Suitable for pipe diameters up to Ø50 mm. Keeps pipes frost-free down to -20°C. To cover longer pipe sections, several heating mats can easily be connected together up to a maximum of 80 m via integrated quick connectors. The connection cable is purchased separately and is available for both Schuko and CEE, as well as extension cables if needed.

Specifications

Connection voltage	230 V
Length Connection cable	0,2 m
Number of conductors	3 pcs
Output	17 W/m
Contains SVHC substances according to REACH	No
Installation temperature, min.	-20 °C
Insulation material inner	PES, 25 mm
Insulation material outer	PE
Cable type	Self-regulating 2-conductor with screen
Enclosure class	IP67
Protective conductor	Braided
UV resistance	Yes
