## EB-Therm 800

DIN-mounted in standard design

### Användning

Public environment, suitable for hotels  
 Snow melting installations  
 Industrial facilities

Display Energy program Buttons

- ✔ Multiple operating modes
- ✔ Contains Hotel Program

EB-Therm 800 is a DIN-mounted digital thermostat of standard design with four built-in operating modes; Heating, Cooling, Industry & Max/Min. The thermostat is therefore suitable for everything from residential environments, offices and warehouses to temperature control of industrial processes and snow melting systems for both ground and roof. The thermostat also provides the option of connecting a remote control unit. EB-Therm 800 also has a hotel program that can be controlled via an external card reader with delay using the thermostat's integrated time relay function.

## Specifications

Anslutningsspänning	230 VAC ±10%, 50 Hz
Färg	Grey
Appstyrning möjlig	No
Effektförbrukning	< 1,0 W
Fjärrstyrning	Potential-free contact closed/open depending on software
Förlängning givarkabel, max.	50 m, 2 * 1,5 mm <sup>2</sup>
Högtemperaturområde	0 °C - 150 °C
Innehåller SVHC ämnen enligt REACH	No
Kapslingsklass	IP20
Reglernoggrannhet	± 0.3°C
Larmrelä	2 A/120 VAC NO
Lågtemperaturområde	-20 °C - 75 °C
Montage	Standard DIN track EN 50022-35
Omgivningstemperatur	-20 - 45 °C
Temperaturbegränsare	5 °C - 45 °C
