EBECO

Multimat

Heating mat for temporary heating

Usage

For outdoor use

Heating of e.g. stairs, entrances and work areas

Several effects · Plug · Mat

- Flexible and adaptable
- Can be connected in series
- Robust and durable

The product is flexible because it is possible to connect several mats with the associated quick connectors. Multimat melts snow and ice effectively and creates safety in areas where there is a risk of slipping. Connection cable is purchased separately and, if necessary, also extension cables.

Specifications
