EBECO

Smartclip

Cable clamps

Usage

- For Frostvakt 25
- For heating cable T-18/T-18 CT

- Regardless of the weather
- Quick and easy placement
- Saves time

Smartclip is a flexible solution for secure attachment of the T-18 heating cable on roof installations without damaging the surface. No adhesive is needed, allowing installation in any weather condition. With quick and easy mounting, which can also be removed if necessary, you get a durable and practical solution for all roof heating cable installations.

The Smartclip system offers five different cable clamps designed for various roof types and installation needs. Each clamp is tailored for specific parts of the roof installation, such as gutters, downspouts, outlets, or magnetic surface, ensuring optimal fit and functionality for every project.
