Splice kit ELVB-SRV-N-LS-W

Usage

- For ELSR-N, -LS, -W

ELVB-SRV-N-LS-W is a splice kit for self-limiting heating cable. Intended for heating cable ELSR-N, LS, W. The supply conductors are fitted with heat-shrink tubing. The transition between the inner insulation and the supply conductors is then also covered with heat-shrink tubing. The supply conductors are spliced together using insulated crimp sleeves, and the earth conductor using an uninsulated crimp sleeve. The entire splice is then sealed with the outer heat-shrink tubing.
The kit can be used with heating cable featuring a braided earth screen (heating cable type BO/BOT) and aluminium foil (heating cable type AO).
The kit gives you a watertight, insulated and correctly made splice that complies with the manufacturer's installation instructions.
