

## Pillar Heater

Ebeco column heaters are specially designed for curing and drying walls and columns, to simplify and speed up the work of building in site-poured concrete.

The cable is parallel resistive and can be used repeatedly. The standard cable length is 4x4 m, but other lengths can be ordered.

### TECHNICAL INFORMATION:

---

Cable type	Parallel resistive
Cold cable length	4 x 4 m
Hot cable length	3 m
Connection voltage	230 V
Lowest installation temp.	-10°C
Smallest bend radius	40 mm
Output	30 W/m
Total output	400 W
Enclosure	IP55
Earth fault breaker	25/0.3 A
Connection device	Plug
Approval	CE

### ARTICLETABLE:

---

Item number	Name	Length	Output
8960498	Column heater	4x4 m	400 W
8960499	Spare cable Column heater	4 m	100 W
